

# ADAPTATION PROCESS

## PMI HYGIENE PROMOTION BOX

### 2004 TSUNAMI OPS

Indonesian Red Cross received IFRC Standard HP Box A

- Some materials are not suitable for the local context
- Some materials are not user-friendly
- Heavy and Expensive
- Long and difficult procurement and importation process

### 2011 - 2012

First Adaptation for HP Box

New Additional Activity Kit

- Glo-Germ
- Pre-fabricated hand puppet
- Giant Snake and Ladder Game

Hygiene Kit Sample Local Context IEC Materials

- Banners
- Posters
- Flip Chart
- Picture Series + Pocket Chart

Waist Loudspeker

### 2020

HP Box Review Process - Challenges and Constraint Identified

- Still too heavy and bulky
- Containers are fragile and easily damaged
- Training Kit is not applicable
- Banner Kit is not applicable
- IEC materials need to be updated
- The loudspeakers are not loud enough
- PMI Vest are not applicable and need to be updated

### 2021

Re-visit the Review Process

- Additional input on COVID-19 and Other Emerging Infectious Diseases on the IEC materials
- Decided to engage local artist/illustrator to develop the IEC materials

### 2022

Procurement Process

- Locally available materials
- More compact and lighter - less than 25kg
- Stronger case
- additional AV electronic devices option
- Additional materials on MHM
- Updated IEC materials
- Less printing materials
