

GERMS and LADDERS

43	44	45	46  You didn't wash your hands!	47	48  You put the garbage in the river!	Finish! 49 You are an hygiene champion!!!
42 Did you know ? Always wash raw vegetables and fruits with clean water before eating them!	41	40 	39  You washed your hands with soap after toilet!	38 	37 	36
29 Oh no! Your school compound is so dirty! 	30	31 	32	33 Did you know that betel nut damages your teeth and can lead to serious disease? Avoid that!	34 	35
28 	27	26  No hand-washing after toilet? You will get sick!	25  You helped your family building a nice toilet! Good job!	24 Oh no! you went to toilet in the bush! 	23 You washed your hands with soap before eating. 	22
15	16 Did you know? Diarrhoea can be reduced by washing hands with soap after toilet and before eating!	17	18 	19	20 	21 Did you know that accumulated garbage leads to a lot of flies, mosquitoes and rats? Keep the environment clean!
14 	13 You keep your nails short and clean. It is a very good habit! 	12	11 	10 Did you know? Malaria can be prevented by sleeping under a mosquito net	9	8
1 Start!	2	3 You brushed your teeth this morning. Very good! 	4	5	6 	7 You walked with no slippers and now you have skin infection! 

How to play? 2 to 4 players.
The 1st one to arrive to the cell 49 wins.
Each player puts a stone on the cell "1 - Start". Each player, in turn, throws the dice and the number that he/she gets corresponds to the number of steps his/her stone should be moved forward.
If the cell where the stone lands has a message, this message has to be read by the player.
If the player arrives at the bottom of a ladder, he can move to the box on the top of the ladder;
if the player reaches the head of a germ, he has to read the message and then slide down the germ towards its tail.
The first player reaching exactly 49 is the hygiene winner! If the value of the dice exceeds 49, then the player doesn't move and wait for next turn.
